 Six members of the public

1. Welcome and apologies for Absence

The chairman noted that apologies had been received from Mr Faulkner, Mr R Walton and Mrs D Irving.

2. Declarations of Interest

None

3. Public Participation

The view was expressed that the school is in a rural location and that the visual impact of the proposed wind generators could be intrusive. It was also felt that as the school is providing a new wildlife area this could conflict with the proposed wind generators.

It was noted that residents of the nearby properties may not have been made aware of the Planning Application.

It was questioned who benefited from the power produced by the generators when the school was closed.

4. Planning Application

a. Installation of three small scale wind generators (14.97m to hub, 5.5m diameter blades.)

The application was approved.

There being no further business the meeting was closed at 7.45pm.
